MANY PRIZES AWAITING DECISION IN THE GLEN COVE GOLF MEETING.

W. G. STEWART THE PAVORITE FOR THE QUEENS COUNTY CUP-FOXHALL P. KEENE AND DEVEREUX EMMETT TIE FOR

THE BOGIE PRIZE-AN OPEN HANDICAP TO-DAY.

The generous array of prizes offered in the tourns ment of the Queens County Golf Club, of Glen Cove, made the second day's contests more than usually interesting yesterday. The club has had a decided success by adding a third cup to the trophies to be awarded, instead of following the usual custom of having only two. Golfers are not "mug-hunters," as a rule, and the present arrangement is regarded with favor solely because it pe mits a larger number of men to continue in the arlous rounds. The custom usually has been to disqualify a large part of those who enter by means f a preliminary round and allow only the better players to contest at hole-play for the prize. While this has it advantages in preventing unpleasant congestion of the grounds, it is herdly calculated to attract the less prominent devotees of the game. The forty-eight men who took part in the preliminary matches on Thursday, graded into three classes according to their scores, were drawn yes-

terday for the first round at match play.

In the Queens County Cup affair the luck of the raw separated Stewart and Travis in the upper half from Foxhall P. Keene in the lower one. Con sequently the stronger players were matched in the first and second rounds against those who ranked considerably below them in skill.

For this reason the day's play lacked the excitement that would otherwise have attended it. The real test is to come this mouning, when Stew art is to play Travis, and Keene to play Emmett in the semi-finals. Of these four, Stewart, the English amateur, is regarded as the ultimate winner of the cup, both by reason of his previous record and his showing in the last two days. Foxhall P. Keene, upon whose shoulders rests the responsibility of upholding the reputation of the American contingent, is regarded as the one who will meet Stewart in the final round, which takes place this afternoon. Yesterday Keene was drawn against E. Leavitt, of the Fairfield Country Club. whom he defeated by a score of 7 up and 5 to play. In the second round he met C. L. Perkins, of the Rockaway Hunt Club, and here again his excelent approach shots, coupled with some capital long-distance putting, were successful by almost as large a score. The fact that he laid Perkins three stymies accounts partly for his excellent showing. stewart had as his opponent in the first round Samuel Frothingham, another Rockaway Hunt Club player, who fared little better than his club mate, Perkins, for Stewart beat him handily. This victory brought the latter against W. B. Cheney. of the Orford Golf Club, who in turn went down before the broad-shouldered Englishman, who thus secured a place in the semi-finals.

Travis, the Oakland champion, whose consistency of form, rather than brilliancy, had defeated W H. Coles, of Oyster Bay, in the first round in the morning, found himself pitted against S. A. Jen morning, found himself pitted against S. A. Jennings in the afternoon. The latter is a member of the Queens County Club and a player of considerable promise. Travis, however, found no difficulty in defeating him, and thereby secured a place in the semi-finals also. The other player to reach this round was Devereux Emmett, of Oystel Bay, who won in turn from W. E. Hicks and F. B. Pratt, both of the Queens County Club.

In the North Country Club, and F. B. Pratt, both of the Queens County Club.

M. Andrews, H. W. Maxwell and J. W. Stilles were the men who remained undefeated at the close of the day's play. They are to meet in the semi-finals this morning, and the winners will then play off for the cub.

The quartet which proved its superiority in the Glen Cove Cup contest lucluded H. L. Riker, a promising young Oakland player; C. J. Fost, in the old-time tennis crack; J. W. Stiles, of Ardsley, and F. T. Underhill, of the Oyster Bay Golf Club. These four will also play a semi-final round this morning, the final round being set for decision in the afternoon.

morning, the final round being set for decision in the afternoon.

In addition to the tournaments for these three cups, a bogie contest was played, in which the scores made by the contestants in the first round were allowed to count for a special prize, known as the Red Spring Cup. Finlay Douglas appeared as one of the competitors against the infatible "Colonel," but did not do at all well, his score by strokes being 100 and his bogie score 2 down. Both Foxhall P. Keene and Devereux Emmett succeeded in beating bogie by 2 up, and they are thus ited for the prize. The tie is to be played off on Tuesday. Emmett made the best actual score of the day reckoned by strokes, and unless it is beaten to-day, he will take the gold meial offered for the lowest record of the week. This is his card: 8 7 5 6 5 5 5 7 4-49 4 5 6 4 3 5 4 4 5-49 To-day, besides the various other contests, the

THE TIGERS FEAR THE INDIANS.

YESTERDAY'S PRACTICE PROVES THAT THE PRINCETON TEAM IS IN BAD FORM.

Princeton, N. J., Oct. 15 .- The coaches are in fear and trembling on the eve of the Indian game, and the whole University believes that it will be the hardest-fought game of the year.

The work of the Tigers has not changed for the hetter, and the seriousness of the situation has rought twelve coaches to town. On the 'Varsity field this afternoon the remarkable spectacle was presented of a coach for every position. Phil King, "Beef" Wheeler, "Alex" Moffat, George Janeway, Irvine, Church. Poe and Fine were there, and gave

practice was poor, so poor that atoma said to times on men: "If the Indians don't score three times on you, it will be a wonder."

Holt, Kelly and Baird were out of the game on account of slight injuries, and Captain Cocaran put Lathrop in his place at end, in order to ald the coaches. Only one touchdown was made in fifteen minutes' play, and that after hard work. Kelly and Holt will be unable to play for more than ten minutes to-morrow. NEW RECORD FROM WASHINGTON TO NEW-YORK.

LIEUTENANT WISE, OF THE NEW-YORK ATHLETIC CLUB, PIDES THE DISTANCE IN TWENTY-SEVEN HOURS AND THIRTY-NINE MIN-. UTES-SCHOCK GOES SOUTH TO

TRAIN - CONDITION OF

THE ROADS. The New-York Athletic Club, not content to shine above all in the athletic field, has given its attention to eyeling. W. H. Wise, a member of the club, arrived in this city yesterday morning from Washington, having riden his bicycle from the Capitel, at Washington, to the City Hall, in this city, in 27 hours and 29 minutes. The best previous, authentic record, according to Licutenant Wise, was comething over 30 hours. The New-York Athletic Club has been ambitious for some time to establish a record between the Capital and the metropolis. Wise is a little fellow of almost Michael's dimensions, but he is known as one of the best all-around read riders in this part of the country. He made an effort to make the trip last July, but he was compelled to step owing to a storm. Wise started from Washington at 5:10 a. m. Thursday. He was paced by J. N. Thompson and H. S. Whiting, on single wheels, from Washington to Baltimore, and from Baltimore to Havre de Grace he was paced by Spalding riders. From Havre de Grace his pacemaker was W. H. Hollett, to whom Mr. Wise feels grateful, as Hollett's work throughout was uniform yet speedy. At Newark, Del. a tandem team from the Wilmington Bicycle Club picked him up and paced mington Bicycle Club picked him up and paced him into Wilmington, where a tandem and singles manned by members of the Wilmington Bicycle Club carried him into Philadelphia. At Philadelphia, Davidson and Peper, on a tandem picked him up and brought him with others the remainder of the way to this city. Members of the New-Brunswick Wheelmen also joined in and helped to pace him on his weary ride.

While the record may not seem a good performance to those who have read of Cordang's 616 miles in twenty-four hours, the conditions were different, and it is doubtful if the lieutenant's record will be beaten until the roads in Delaware and Maryland are improved. In speaking of his ride yesterday afternoon, Wise said: "The pace all the way to Wilmington was slow, owing to the wretched condition of the reads. The first four hours of the ride were made in mist and drizzle, making the roads muddy and sticky. At one place It took us four hours to travel twenty-five miles, the sand at times being over the rims of our wheels. Our first stop of any consequence was made at Philadelphia, where we rested thirty minutes and made a change of clothing and had a rub-down. From Philadelphia on the tandems were bent upon making up lost time and we made the wheels hum through the dark to New-Brunswick. Here it began to get light and the pacemakers made the pace hotter, and on several good stretches we were reeling off miles at the rate of a mile in three minutes. On some of the sandy retches I was tuckered out somewhat and I took stretches I was tuckered out somewhat and I took some stimulants, which enabled me to get through to Jersey City in good shape. The Heutenant says that much of his success is due to the excellent pacemaking furnished by the Wilmington and New-Brunswick Chuba and to Messrs. Davidson and Peper. He had several falls during the trip, the worst being at Frankfort. Penn, at It of clock at night. Here the pacing tandem slipped in the mind and the riders went down. Wise was going so fest that he struck the fallen tandem and he and his wheel were hurled into the air, but neither were injured seriously, his worst injury being a scraped knee. The distance ridden was 2009 miles, over all sorts of ronds.

Albert Schock, the long-distance professional bicyclist, left last night for the South, to begin training for the six-day race in Madison Square Garden n December. Schock will be backed this time by its old friend and one-time competitor, "Schator" He goes first to Highland, Fla., and will spend three weeks at Mr. Morgan's homestead, and will do work calculated to develop the upper part of his body, which will consist of chopping down trees and using the pick and shovel, as well as aking general exercise. He will then continue his taking general exercise. He will then continue his training at Jacksonville on the cement track. Eck has been engaged to look after Schock during the races, and Morgan talinks that the old war-horse will come pretty near two thousand miles, as they will race him according to a schedule. Schock is the man who made Morgan ride the 25 miles without leaving the saddle in the 14-hour race at Minneapolis in 1886.

The road conditions sent in to the New-York Division of the League of American Wheelmen last night snow that most of the suburban roads are in excellent condition, and, unless heavy rains should fall, excellent riding is promised for to-morrow. Secretary-Treasurer Bull desires members of the League of American Wheelmen residing in districts from which no reports are sent to volunteer to send matter to the division. If they will notify him he will forward postal-cards on which the reports are

President Obermeyer of the South Brooklyn Wheelmen feels inclined to refuse the cup won at the recent ten-mile road race, held under the au-spices of the Associated Cycling Clubs of Long Island. The chances are that the race will be run over again.

Two race meets are offered for to-day. Firemen's Bicycle Club will have a racing matinee at the Glympic track, One-hundred-and-thirty-fifthest and Lenox-ave, this afternoon. Some exciting road races are promised at the meet of the Holo Cycle Club on the road at Fourth-ave, and Sixticth-st., Brooklyn.

TIDINGS OF W. S. ANDREWS.

THE MISSING POLITICIAN WAS IN SAN FRAN-CISCO UP TO EIGHT DAYS AGO.

S. Andrews, an ex-Tammany leader, had been miss-ing from his home for ever ax weeks. The dispatch created considerable surprise in behemian circles in this city, as for many evenings for the last few weeks Mr. Andrews has been the centre of a convivial group at the local Press Club, to which institution he was introduced by a prominent mem-ber. About eight days ago he suddenly ceased his visits to the club, and as he had intimated his de-termination to go to New-York it was naturally supposed that he had carried out that intention.

At the house of Mr. Andrews's brother, Dr Charles L. Andrews, No. 121 East Seventleth-st. it was stated last night that nothing has been heard about Mr. Andrews having left San Francisco for this city. Dr. Andrews, however, deciares that his brother will return before the end of the present month.

From a single house in Bourbon-st., four cases were reported by Dr. Formento, and in his official statement to the Board the doctor wrote that. somewhat remarkable to say, the patients were

attacked almost simultaneously. A similar condition of affairs was reported from Nos. 708 and 710 Third-st., a double cottage. Two cases were found on one side and three on the other, and the report of them was made in a group. The cases, as usual, are confined to no particular locality of the city. A promising feature of the situation, however, is that recoveries and discharges of patients are numerous. This is the fortieth day of the fever, and up to this afternoon the total recoveries exceeded the number of cases now under treatment, showing the success local physicians are meeting in treating the cases.

The Weather Bureau predicts a storm in the Guif, with a possibility of its reaching New-Or-leans it has not made its appearance yet, though the weather is a trifle cooler this evening, but it is still warm enough to develop cases rapidly. Frost cannot reasonably be expected inside of a month. other, and the report of them was made in a group

NO PEVER IN GALVESTON NOW. Galvesfon, Tex., Oct. 15.-James Sewall, the last of Dr. Guiteras's alleged yellow fever cases, was discharged to-day, cured. Of four cases found by decharged to-day, cured. Of roll cases found as local physicians one has been discharged, and three are sitting up, practically well, Galveston and Houston citizens and physicians have been conferring to show that the discuse is the same in both places, and not yellow fever, in order to in-duce other parts of the State to raise their quaran-tine. All railroads offer free transportation to physicians from the interior to come and examine the situation.

FEVER REFUGEES AT ST. LOUIS.

St. Louis, Oct. 15.-Ever since the appearance of yellow fever in Texas, refugees from Galveston. Houston and other cities in the Lone Star State have been flocking to St. Louis. A special train carrying sixty-five passengers from Houston and carrying sixty-five passengers from Houston and Galveston arrived last night. Among those on board was Dr. John Guiteras, the yellow fever expert of the United States Marine Hospital Service. He said there was absolutely no danger in allowing these retugees to come to St. Louis. Dr. Starkioff, Health Commissioner of St. Louis, takes the same view. A majority of these passengers will stay in St. Louis, while the others will scatter about the country on business or picasure. Dr. Guiteras said he was on his way to his home in Philindeippia, as he had finished his tour of inspection in the South. He will make an exhaustive report of his inspection to his chief. The convicted man is the head of the Dalton Grocery Company, the largest concern in the county, and agent for the Western and Atlantic Railroad at Dalton. It two sons were wanted as witnesses in the case and were also indeted, but cannot be found. The strongest evidence produced against Peoples was that he stole six barrels of moissess out of a station and had his name marked on them, and hist the carrieds on the floor of his elegant home were stolen out of a loxear by train robbers and hidden in his learn for some time. He finally bengat them for M2 and had them put on the floors of his house. This way clearly proven and could not be defield.

ON THE TRACK OF CHRISTIAN.

THE WURTSBORO MUEDERER RELIEVED TO BE

Ellenville, N. V. Oct. E. Sheriff Watson believes that Wallace Christian, who some time ago at Wurtsboro shot and killed Herace F. Pritchard, a lumber merchant from New-York, and a constable named Maury, while they were endeavoring to serve a legal paper on him, is hiding in the woods at Ulster Heights, nine miles from here. It is said that a man answering the description of Christian has been seen several times in the woods The Sheriff, accompanied by Denuty Avery, went on a tour of inspection and found a hut built of shrewsherry brush and skins. In front of the place a die of coals was seen, which would indicate that the lut had lately been occupied. Mr Watson is making arrangements to search the woods.

INTEREST IN MUNICIPAL REFORM. Battle Creek, Mich., Oct. E. The subject of my

nicipal reform excites greater interest thus far than anything discussed before the Civic Philanthropic anything discussed before the Civic Philanthropic conference. The position of Mayor Jones of Toledo is especially indersed. The Tole la Mayor argues that all contract work should be done away with for contractors, pay must either come cut of inferior work or inferior wages. Money spent with contractors, he holds, goes from the people instead of to the people.

"Philanthropy was the subject to-day and will be to-merrow. At to-day's brat session a paper on "What to Do With Exclouders, was read by the Rev. J. P. Maveete, of Jackson, Mich. He said. "The convict is a branded man. No one wants anything to do with him. He is with us and we must do something for him. It is must either he put in helpful surroundings, empoyment given him for ex-convicts is to do not have the work thing for ex-convicts is to do not have to he restored to usefulness; some do not care to be men. The latter class should have a continuous settence, for they scorn effort, and should be put where they cannot harm society."

MR. BLISS'S POSITION THEN. IN JANUARY HE WAS FOR HOME RULE AND

NON-PARTISANSHIP IN MUNICIPAL AFFAIRS. In an interview in "The Mail and Express" on January 2, 1897. Secretary Bliss expressed views which are in striking contrast to his letter to General Tracy published October 14, 1897:

I have taken some part in public affairs in this city and State the last few years, but I have always endeavored to be fair, even when others have not been fair to me. I have stood for home rule, for non-partisanship in municipal affairs and for honest methods in our politics. I stand there yet, but I have never concealed the fact that in State and National politics I am a Republican and always with my party.

PLATT GOES HOME TO REGISTER. EXPECTED BACK FROM TIOGA COUNTY TO-NIGHT-POSSIBLE EFFECT OF PRINTING JUSTICE PARKER'S NAME IN A COLUMN WITH LOW'S.

A languid feeling pervaded the Republican State Headquarters, in the Fifth Avenue Hotel, yester-This was partly ascribed to the circumstance that those eminent State leaders, Senator Platt and Chairman Hackett, had packed their grips and withdrawn from personal participation in the aggressive work of the campaign, for the purpose of going home to register. Mr. Platt went to Owego, Tioga County, and Mr. Hackett went to They are both to be back Utica, Oneida County. again this evening. Their principal regret was that no amount of registering in Tioga and Onelda countles would qualify them to vote for Genera Tracy. A question discussed at headquarters yesterday

was how the vote of Judge Wallace, Republica candidate for Chief Judge of the Court of Appeals, might be affected by the printing of the name of his opponent. Justice Parker, in the same column with Seth Low's name on the official ballot, both of this city and Brooklyn. Some of the organization politicans were somewhat worried yesterday when they heard that the Democratic State managers at their Hoffman House headquarters had been figuring up expected gains to Parker on both sides of the East River. As a result of his heading a ticket hearing Mr. Low's name. This is the ticket of the National (Gold) Democracy which nominated Parker for Chief Judge, the Low city ticket and the Tammany Hall County ticket, and will appear under the embien of the full-rigged ship. A warning to Republicans who intend voting for Mr. Low may be issued, cautioning them to beware of the Ship ticket, which begins with Parker and ends with Tammany. candidate for Chief Judge of the Court of Appeals

AS IT LOOKS TO E. P. BROWN.

There was a mass-meeting last night at the rooms of the XVIIth Assembly District Republican Asso ciation, Senator Charles B. Page presiding. The principal speaker was Edward Payson Brown, ex-Congressman from Massachusetts. address was largely statis ical, and dealt with the opposing forces of Seth Low and Henry George Tammany figuring little in his remarks. A discussion of labor and wages in America aken up to show the absurdity of Mr. George's given to prove that his one-tax idea was a false, absurd and impracticable theory. "The worst feat-ure of Henry George, however," said the speaker, his associates, and you know that to-day every Anarchist and Socialist and Populist is praying

however, to say why Mr. Low was not a fit candidate for Mayor of the enlarged city. Mr. Low was accused of setting out to ruin the organization of the Republican party.

"The Republican party," said the speaker, "which cast 26 per cent of the vote of Greater New-York in 1835, can afferd to lose 31,00 votes and still win the fight, and, by virtue of the divided opposition, can even win by 250,60 votes. The one possible chance of defeat lies in the abandonment of the organization by the Republicans. I say thank God, we have a machine. Organization is necessary to any fight, and the one defect in our machine is that a man who has stabbed his party should be allowed within its lines again.

Clarence Fuller followed as second speaker, trying to show the justice of regarding the fight as National in its adhence upon the city itself and upon the Nation. He denounced the Citizens movement as a treacherous describin from the Republican ranks, lee by one who had been brought out of political obscurity by Benjamin Tracy. The speaker became somewhat absent-minded several times, referring to Mr. Low as Henry Clay and to Henry George as St. George. Mr. Limburger also spoke.

IN PAYOR OF ELIAS GOODMAN.

Rouald K. Brown, nomince of the Citizens Union for Ald-tman in the XXXIst Assembly District, has declined his nemination for the reasons stated in the following letter sent to the chairman of the

Committee for the district:

October 14, 1857.

Alan D. Kenyon, Chairman of the Citizens Union in the XXXIst Assembly District.
Dear Sit While appetenting the honor conferred mean me by your organization, in nominating me as Alderman for the XXXIst Assembly District, I feel that the cause of good government will be aided more by my retirement from the context than by the retention of my name on the ticket.

In the past the voters of our district have, by a large majority, supported the candidate of the Republican organization. Its candidate for Alderman this year, Mr. Elias Goodman, has by als past recent as a capable, honest and efficient public officer, demonstrated his finess for the position; and if any large number of votes should be drawn from him to my support, I fear that thereby the representative of a worse organization might be elected. I am unwilling to have my candidate the cause of any such calamity.

I pespectfully decline the nomination tendered to me, Very truly yours. RONALD K. BROWN.

JUDGE VAN WYCK'S HEADQUARTEDS.

The decression and anxiety which have revealed at Judge Van Wyck's headquarters, in the Hotel Parthold, since Charles W. Daylon's acceptance of the Henry George nomination for Controller was not materially lessened yesterday, although great effort was made by ex-Mayor Grant and his association to look happy, however, was plainly hard work, and toward the end of the day pretty much abandened. The spirits of Judge Van Wyck's faithful workers were raised a little by the reception of a paper saying that members of the County Cavan Association to the number of one hundred had burn to-day filed a petition before Justice Cole, of Partholdi, since Charles W. Dayton's acceptance burn to-day filed a petition before Justice Co.e. of the District Court, for a writ of mandamus against the District Court, for a writ of mandamus against the Secretary to set aside his order approving the recommendation of the Commissioner of Patents that the firm of John Wederburn & Co. be not further that the firm of John Wederburn & Co. be not further to look bappy, lowever, was plainly hard recognized as agents or attorneys practising before

MMES. SEMBRICH AND KOPACST.

SINGERS FOR CONCERT AND OPERETTA ARRIVE ON THE SAME STEAMER. Two singers arrived here yesterday on the Ner.

mannia. They were Mme. Marcella Sembrich, who has just come from Dreaden with her husband, Professor Wilhelm Stengel, to begin an American concert tour, and Mme. Julie Kopáccy, who in from Vienna and is also accompanied by her husband Wilhelm Karczag, and will be the head of the operetta company of the Irving Palace Theatre.

Mme. Sembrich was here last in the season of 1884-85. She said, with striking originality for prima donna, that she was glad to get back, but she added that she feared that the Americans had forgotten her. Mme. Sembrich will begin her segat the Metropolitan Opera House on October She will remain in New-York for about a week son at the Metropolitan Opera House after that time, and will take part in the opening concert at the Astoria Hotel. She will then make a long tour, visiting Hartford, Philadelphia, Balti a long tour, visiting Hartford, Philadelphia, Balts, more. Pittsburg. Cleveland, Chicago, St. Louis, Cincinnati, Buffalo, Boston, Toronto, Detroit and Indianapolis. She will appear only in concerts, but her selections will be operatic. She said yesterday that she was sorry not to be able to appear in opera this season, but that she hoped to do so near winter, when she expected to be a member of the Grau company at the Metropolitan Opera House. She expected to sing no Wagner music except some from "Lohenarin." as she did not think that the rest of it was suited to her voice. Signor Bergmanl, who was one of the musical directors of the Metropolitan season a year ago, is to conduct the Sembrich concerts. He was also a passenger on the Normannia.

Mmc. Kopācsy is visiting this country for the first time. She is to begin her season at the Irving Place Theatre on Monday evening, October 25, in the operatics, "Lachtaube." She modestly admitted last night that her appearance anywhere else in America would depend on her success in New-York. But her manager, Mr. Conried, is not so modess. He does not admit that there is any doubt about her success. Before she leaves New-York she will appear in Goldmark's "The Cricket on the Hearth." This was the last work in which she cang in Europe, and she is immeasurably enthusiastic about it. Mr. Conried also, although he owns the rights to the opera for this country, does not deny that it is better than "Hansel and Gretel." more, Pittsburg, Cleveland, Chicago, St. Louis,

A RAID ON THE NEVADA CLUB.

RICHARD CROKER UNWITTINGLY LEADS A PRA CESSION OF ALLEGED GAMBLERS.

The police made a raid last evening on the Nevada Club, which has rooms on the second floor of the Hotel Metropole, and six men who were caught playing poker were placed under arrest. They gave the following names at the West Thirtieth-st, sta-tion: John Smith, thirty-two years old, of No. 241 East Twenty-fifth-st.; James Shannon, thirty two years old, Grand-st., Newburg: Edward White thirty-five years old, St. Cloud Hotel; Joseph Rose thirty-eight years old, No. 215 West One-hundred-and-twenty-fourth-st.; H. M. Johnson, fifty-seven years old, St. Cloud Hotel, and John Williams fifty-two years old, of the Stevens House, lower

The arrest was caused by Edward Ledelley, who says he lives in the St. George Hotel, Brooklyn. He told Captain Sheehan that he had lost \$50 at poker in the club and demanded that the place be raided. Captain Sheehan and Sergeant Daly went to the hotel and placed the alleged gamblers under arrest. Several packs of cards and about a peck of paker chips were confiscated. The prisoners were

released under bail. The Nevada Club has been running for several years. Its rooms are on the Broadway side of the years. Its rooms are on the Broadway side of the hotel. Immediately adjoining, but in the rear. Thomas J. Dunn, the Tammany candidate for Sheriff, has his headquarters. As the party of officers and prisoners walked down the marble stairway, Richard Croker and Mr. Dunn, arm in arm, catae out of Mr. Dunn's headquarters just ahead of the policemen and their prisoners, and they did not know that they were leading a procession of gamblers down the stairs, and the people in the hotel lobby that recognized Mr. Croker naturally supposed the men under arrest were some friends of his who were escorting him home.

HOBOKEN'S CITY CLERK SAYS HE MUST EITHER VIOLATE A LAW OR BUILD POLLING-

City Clerk McDermott of Hoboken is having trouble in selecting polling-places for the election which takes place next month. One the laws of New-Jersey prescribes that the polls must not be within one hundred feet of any place when liquor is sold, but Mr. McDermott declares that he cannot, in every case, meet all the requirehe cannot, in every case, meet all the requirements of the statute, owing to the extreme liberality of the City Council in granting saloon licenses. In some sections of the city saloons are so numerous that it would be impossible to travel lifty feet without passing at least one. None of the saloonkeepers are willing to absurd nitheir places of business in order to relieve the City Clerk of his embarrassment, and Mr. McDermott in his extremity, declares that he must either violate the letter of the law or else establish the polling-places a hundred feet up in the air. The former course appears to him to be the more available, so he will pursue it unless some good man of an inventive turn of mind, devises a plan that will prove acceptable to all parties concerned.
